## BIBLE THOUGHT FOR TODAY

**NO RESPECTER OF PERSONS:**—Of a truth I perceive that God is no respecter of persons; but in every nation he that feareth him, and worketh righteousness, is accepted with him.—Acts 10:34, 5.

## HOW TO MAKE A TOWN POOR

The soldiers in the near southwest during the Civil War used to say that the brimstone pit was "a mile and a half on the other side of Fort Scott." Fort Scott, as you may or may not happen to know, is an enterprising and lovely little city on the eastern border of Kansas. It used to be a border town, but now it is a dairy town, and therefore, as far, far removed from the infernal regions. George Marble, veteran editor of the Fort Scott Tribune-Monitor told the story of his town and its transition to the journalists of Missouri at Columbia recently, while advising them to boost their fundamental industry, which in most cases, he declared, they would find to be agriculture. Fort Scott, it seems, had "impoverished itself paying bonuses to manufacturing concerns whose smokestacks were idle." The community was in hard lines. Then Fort Scott saw the light, and began to boost its agricultural possibilities, with special attention to dairying. Milk produced in the territory now brings in more than \$1,200 a day to the local condenseries, it is said, and the community is prosperous. There are thousands of towns that might take this lesson to heart, and increase wealth and population by helping develop the agricultural wealth at hand. One way of helping is to see that the farmers get the highest price the market will stand for all the products they offer for sale. There are too many places where they are bilked

out of a cent or two on every dozen eggs, two or three cents on every pound of poultry or butterfat, and every bushel of grain they sell. That's one way to discourage agriculture, and make a town poor.—Farm Life.

Taking the regrets that one accumulates in a lifetime, it is probable that a wild and irresponsible tongue has produced a good working majority of them.—Huntington Post.

You can form an opinion of a man's finances by his stock of photograph records. If the records are all three or four years old, he's broke and isn't buying any new ones. If they're brand new and up to the minute, he's broke from keeping up with the new ones.—Kansas City Star.

In appreciation of the work of a Kansas editor for the community, a bunch of citizens recently presented him with a bouquet. On the same occasion a quartet from a local church sang a few sweet songs and a minister made a little talk. After the minister's talk six husky men carried the popular editor from the house, placed him tenderly in a model 1921 plumed sedan and the whole town formed a parade behind the editor's expensive car. After this the appreciative crowd returned to their homes, serene in the thought of having provided one bright day in the life of their loyal news purveyor, even if they did wait until he was dead to do it.—Fairview, Kansas, Enterprise.

## SAME OLD STORY

## BUT A GOOD ONE

Mrs. Mahala Burns, Savanna, Mo., relates an experience, the like of which has happened in almost every neighborhood in this country, and has been told and related by thousands of others, as follows: "I used a bottle of Chamberlain's Colic and Diarrhoea Remedy about nine years ago and it cured me of flux (dysentery). I had another attack of the same complaint three or four years ago and a few doses of this remedy cured me. I have recommended it to dozens of people since I first used it and shall continue to do so for I know it is a quick and positive cure for bowel troubles."

## "Just A Real Good Car"

There is a wealth of meaning in the phrase: "Just a real good car." It means that in the design and construction every care has been taken to build a serviceable automobile. It means care, extreme care, in everything done from the beginning to the end. The 22,000 owners who have bought Durant cars know what is meant by having "Just a Real Good Car."

Think of the Durant Four  
 at \$890

Think of the Durant Four  
 Sedan at  
 \$1365

and then turn your mind back a year and think of the values at that time. It is not too much to say, then, that Durant did create a new standard of Motor Car Values.
